

# Advancing Research 2022

by Rosenfeld

@advancingresrch #AR2022 9 March 2022

We are missing out on finding talented people ... the stakes are high for our field and the future!

I HAVE SPENT THE LAST FOUR YEARS CONDUCTING RESEARCH FOCUSED ON TALENT ACQUISITION and THE RECEVITING EXPERIENCE

Who to hire? How to search? BUILDING TEAMS, OUTSIDE IN

### imagine ... 400've been invited to a 12 RESTAURANT

- Fancy. Hard to get into. You don't know the cuisine. "NOUVEAU FUSION SOMETHING"
- But you go. Chat to your group on the way there ... "EXCITED TOTRY SOMETHING I'VE NEVER HAD BEFORE!"
- · Arriving, you feel out of place. Your group sits, and someone orders for you..
- · The food is brought by a server. You don't recognize it until you catch a whiff of a familiar aroma. You take a bite ... wow! this is what I make at home!
- · Your friends are confused. YOU HAVEN'T BEEN TO CULINARY SCHOOL. Discovery! SUDDENLY. WHAH!

Ive done 2 lot of different things before finding UX Research

Regardless of the type of work, I have always ...

- BEEN CURIOUS
- ASKED QUESTIONS
- TOLD STORIES
- BEEN ANALYTICAL
- LOVED STRUCTURE and systems. PROCESS & INQUIRY
- CARED ABOUT PEOPLE their actions and experiences

I WAS DOING THIS WORK LONG BEFORE I HELD MY CURRENT TITLE ... I JUST DIDN'TUSE the SAME WORDS TO DESCRIBE IT

I ve noticed that the most success. ful researchers I've worked with also traversed a non-linear path

THE CAREER LADDERS WE HAVE TODAY ALLSEEM TO EXPECT (OR DEMAND) A LINEAR TRAJECTORY

# Theme 1: Advancing Our Field curated by Chris Geison

M.C. Escher's Career Ladder

REKNOWNED GRAPHIC ARTIST 1890-1972 created "impossible"spaces

#### MACKENZIE GUINON

Senior UX Researcher, Handshake @mackenzie\_UX

A LITTLE OUT OF VOGUE as 2 METAPHOR which is inspired by my out experience.
THIS IS ABOUT US AND OUR CAREER PATHS Whatever Kind of researcher you are ...

> When you think about it, our role is about bringing the outside in

HOW MIGHT WE BLUR

the BARRIER between OUTSIDE and INSIDE?

"A friend invited me tothis ... "

"Ineed my "Stamp.". I need to learn the right

words." "I've already beendoing this ... I didn't Know there were

we have do! "Iwonder " You hired what would me for the have happened ... "

wrong "

There's a

DISCONNECT;

THROUGH LINE

"The stuff that makes me good at what I do? It's the stuff that is never in the annual review."

ABOUT WHO

WE ARE?

RESEARCH

IDENTITIES

## TO DEFINE RESEARCH IDENTITIES

- Make space and time to get to know your team, host anoffsite
- DINDIVIDUAL RESEARCHER IDENTITY EXERCISE (details in slides) <
- TEAM RESEARCH IDENTITY EXERCISE

#### SUCCESSFUL PROJECT MODELS

- · Nominate, review, and examine the most successful research projects
- · Analyze, pinpoint, discuss, arque
- · Honest process story; include struggles
- · Create an abstracted definition & model
- Not a standardization
- · Greatest value: make definition of success explicitly co-owned; ways to be successful are modeled and visible
- Update with new ways to be successful

### REDEFINE PERFORMANCE REVIEW

- Bring individual and team identities as well as successful project models into performance reviews
- . Draw a through line between who we are and what we know makes us successful -> how we define measure and recognize success
- · Must: Build a channel for challenging how things are done
- Experiment. Be humble. Gutinously learn and improve.

HOW MIGHT WE ... ... BUILD BETTER

WAYS TO FIND and INVITE?

... OPEN NEW and BETTER Poors?
